DataDesk 450

12.0" - 15.0"

Attaché case for Notebook and HP DJ 450 printer. Work right out of your case.

The professional, transportable office for work with your Notebook and printer. Your 'Mobile Computing Equipment' is optimally protected by the aluminum profile construction of the case with sidewalls made of extremely light-weight and unbreakable 'Conpearl' synthetic. Additionally, the DataDesk is lockable and the two keys are included in the scope of supply. The interior plate for the hardware mount is made of thermoformed ABS parts.
The Notebook is mounted with a 3M dual lock fastening and a synthetic mount brace. The printer fits exactly into the intended opening. Simply open the case and start working! Notebook and printer remain cabled within the lower case hull. The paper feed runs under the Notebook saving space and without bending the paper.
Two different couplings allow for the connection of Notebooks from different manufacturers (up to 340 x 310 x 55 mm). The 220-V electrical outlet on the exterior case hull supplies the power units of the Notebook and printer with electricity. Storage room for accessories can be found in the accessory compartments in the detachable case flap.

Extra robust hull. 220-V-electrical socket on the hull exterior. USB printer cable with 90° angled plug in-cluded. custom-fit mount for the printer. Notebook fastening via flexible synthetic corners provided by 3M Dual-Lock. Lockable Box, two keys are includued in the scope of supply. 2 different coupling for the most popular 14”/15" Notebooks (2 x 8 Eu-ros, 2 x 8 Euros with ground wire). uses the original power supply units. accessory compartments in the case flap.

Art. Nr.: N9748A (black)
